Hearwarming Story

Shazia Bi, a widowed mother from Uttar Pradesh, lost her husband tragically a few years ago. To support herself and her three children, she stitches clothes for a modest income. Despite her hard work, her earnings barely cover their basic needs.

Her young children often wonder why they can't enjoy tasty iftar meals like their school friends. "My children will be overjoyed; I'll prepare a special meal for them," exclaimed Shazia Bi with excitement upon receiving our monthly Ration Package. There have been occasions when she had to break her fast with only water and roti due to lack of resources.
